### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. The application has been amended as follows: claim 1, the term " said" in "a control voltage supply circuit using **said** external control voltage.." has been changed to ...a control voltage supply circuit using **an** external control voltage...

### ***Allowable Subject Matter***

3. Claims 13-27 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Regarding claims 13, 18, and 23, Hyakutake (5,146,180) disclose a gain control circuit, comprising a control voltage supply circuit using an external control voltage ( $V_c$  (out)) to generate an internal control voltage ( $V_c$  (in)) and a variable gain circuit using the internal control voltage to produce a compensated gain characteristic (figs.1-10, column 3 line 19 to column 4 line 65).

This reference does not specifically disclose the internal control voltage relative to the external control voltage from a first reference voltage to a second reference voltage being different from when the external control voltage is less than the first

reference voltage or exceeds the second reference voltage and a variable gain circuit compensates non-linear gain characteristics when the external control voltage is less than the first reference voltage or exceeds the second reference voltage.

### ***Conclusion***
